Rev. P. J. Wolf, D. D., of the Theological Seminary and Rev. C. Walter, a student of the same institution, addressed the Missionary Society of the Evangelical Lutheran church of Dondoreville on Sunday.

These addresses were very much appreciated, as well as the excellent programme rendered by the society.

The church was full and the impressions made were good.

The State College Cadets. Wednesday afternoon Lieutenant Wolf took the cadets to Culp's Hill on a skirmish drill.

The boys were given an idea of the way things are done during actual warfare. On Thursday the battalion was reviewed by Captain Fred M. Cox, of the Governor's Troop, and Friday morning the cadets left for home on a special train.

At Harrisburg they were reviewed by Governor Patton and the State Senate. Their stay here was enjoyed by both citizens and students.

Their behavior was exemplary and they left nothing but the most favorable impression behind them. We trust that the success of this excursion may cause it to be made an annual affair.

Good looks. Good looks are more than skin deep, depending upon a healthy condition of all the organs of the body. Liver is the most important of these organs. If you have a weak liver, you will have a weak body. Dr. J. C. Ayer & Co.'s Cathartic Pills are the best for this purpose.

A very creditable game of football was played Tuesday afternoon by the State College eleven against the State College Blue Devils. The latter did not have out of the regular men but strong substitutes were used. Two halves of thirty minutes each were played, the score being 10 to 0 in favor of the State College. Eight points were made in the first half and ten in the second.

The rush line did fairly well against the heavy antagonists, but Hilgert, Gammeler and Rudolph played brilliantly. Hilgert made a run of forty or fifty yards which was loudly applauded. All aid Cartright made the gains for State College. The game proved to our eleven the advantage of different styles of play. They should practice the passing and kick cross play worked by the Cadets for the great gain, and not attempt to knock these goals all the time.

It was expected by the supporters of the local players that the score of the State College boys would easily reach fifty, and the showing that the former made was exceedingly gratifying. The playing proved that Pennsylvania College has been recently improved. The eleven played, but a heavy loss on the field as any college of football. The visit of the cadets has raised the enthusiasm of the student body for the sports. Several new men have promised to play on the rush line and admirers of the game will have the pleasure of witnessing some games on the home grounds before the season closes. The following schedule has been arranged by manager George Nov. York York College Institute at Gettysburg, Nov. 14th Western Maryland College at Gettysburg, Nov. 21st York College Institute at York. Dates have been asked for with Johns Hopkins, Franklin and Marshall and Mt. St. Mary's.

The College eleven went to Westminster Saturday to play with the Western Maryland team. The game was very sided, the score being 61 to 0 in favor of Pennsylvania.

On Saturday the York College last week will be here for a game on the Preparatory grounds.

At the last meeting of the Synod, at Saratoga, a special committee was appointed, with Judge Willis of this place, as chairman, to investigate and report to the next Synod on Government distribution of public money to Indian schools.

The Synod after a warm discussion is reported as having passed by a very large vote a resolution "discountenancing and protesting against all systems of hoarding of the traffic in intoxicating drinks, and emphasizing the need of, and our demand for, the entire prohibition of the same."

This is not very clear. If it means that the Synod prefers prohibition to license, it represents its people. If it means that it prefers free sale of liquor, it represents its people. It is to be regretted that the Synod, if it thought a deliberation necessary, did not make it intelligible and use such language as, naturally interpreted, would not be out of harmony with reason and common sense. Restriction by license is a compromise, and a compromise is a compromise. Why, then, "discountenancing and protesting against" the only thing which can, under existing circumstances, lessen the evils of intemperance?

On the day of the sale of the Registered Jersey cattle of Meadow Valley Farm, at D. S. Fairman's stock yards, the imported cow Camille No. 4565, will be exhibited. This cow is the mother of 14 calves and is due to calve in a short time again. She made 15 1/2 lbs. of butter in October last. Her blood runs through many of the animals offered for sale.
