The executive board met at 2 o'clock and the chapter at 2:30 p. m., with Mrs. Henry W. A. Hanon, regent, presiding at both sessions. The ritual was conducted by Mrs. Harvey D. Hoover and this was followed by monthly reports of officers and committee chairmen.

Miss Helen Cope reported that the high school essays are in the hands of the judges, Mrs. Elsie Singmaster Lewars, Dr. Robert Fortenbaugh and Augustus Hackman. The winners will be announced when the judges reach a decision.

On May 20, a patriotic celebration will be held at the high school building, at which time the three senior essay prizes and the junior history prize winners will be awarded. The chapter will attend the exercises.

Local Girl Honored
Mrs. Hanson announced that Miss Marian Sheely had been selected as Gettysburg's choice in the Good Citizenship Pilgrimage contest. There were 56 girls chosen in Pennsylvania. The one who will make the pilgrimage to Washington in April is Miss Mildred Lucas, of Butler, Pa. The others will receive good citizenship medals and Miss Sheely's will be presented to her at the time the prizes are given. Miss Sheely is a high school student and is the daughter of Mr. and Mrs. Charles M. Sheely, West Middle street.

Mrs. J. Ellis Musselman gave the report of the nominating committee in preparation for the triennial election at the May meeting.

Mrs. Raymond F. Topper gave the report of the committee on the revision of the by-laws. The new laws were accepted as the committee had prepared them. It was decided to continue to hold monthly meetings on the first Friday of each month.

Annual reports of the year's work were given by each chapter officer. These reports showed the emphasis being placed on patriotic education among young people. The regent gave her report and made suggestions for future work of the chapter.

Hear Story Of Battle
After the business session, Mrs. J. Allen Deardorff gave an interesting paper based on the story of the battle of Gettysburg as related to her by her grandmother, Mrs. Emanuel Bushman, who was in town at the time and who in spite of danger stayed with her husband, although their children had been sent away for safety. She told of her friend, Jennie Wade, to whom she was talking a short time before her death. Mrs. Bushman narrowly escaped being shot and a rare old quilt was displayed showing a hole from one of the bullets that entered her bed room. Details of local persons and their preparations for safety were contained in Mrs. Deardorff's story.

Refreshments were served by the hostesses, with Miss Helen Cope and Miss Martha Lott pouring at the tea table. Spring flowers and candies were used in decorating. The hostesses were Mrs. J. Allen Deardorff, Miss Helen Cope, Mrs. John D. Lippy and Miss Martha Lott.

Completely paralyzed from her waist down within less than three days when she was stricken the latter part of August, 1932, the little girl was taken to Baltimore the day before Labor day, in 1932, where she has remained ever since.

Her recovery has been slow and tedious, but during the long hospital confinement the little girl has shown exceptional endurance and patience and she has responded to a marked degree to the new treatments which have greatly improved her condition.

Little Anne is now able to walk with the use of crutches and braces and her physicians are hopeful that she will eventually discard her crutches and resume normal habits of walking.

ARENDSVILLE PLANS LARGER SCHOOL ROOM

Board Seeks to Enlarge Auditorium With Aid of Fund From WPA.

HOPE TO START BUILDING SOON

Decision to erect a one-story addition to the auditorium of the Arendtsville high school, to provide 740 square feet of additional floor space, was reached at a meeting of the school board this week.

Work on the new structure, to require about one month for completion, is expected to begin about July 1, or as soon as repairs and improvements now underway at the school, are completed.

Application has been made by the vocational school board to the works progress administration for funds to pay labor costs for the erection of the new addition. School officials said today that tentative approval has been received from the WPA on plans for the one-story brick addition. Material costs which will be paid by the school district will amount to about \$1,000, it is estimated, while labor costs may total about \$1,500.

Need More Room

The need for a larger school auditorium has long been felt at the Arendtsville institution. The present room, measuring only 37x48 feet, has been used for plays, basketball games and many other school activities. The auditorium will measure 37x68 feet with the new addition.

Workers have been busy at the Arendtsville school since late last fall on the installation of girls' and boys' showers and lockers and in making other repairs and improvements. As soon as that work is completed, it is hoped that construction of the new building may be started.

At the same meeting of the school board, the tax rate for school purposes in the borough of Arendtsville in 1936 was set at 13 mills, the same rate that was in effect last year. The tax rate was set after a tentative budget had been adopted. The budget made provision for the erection of the addition to the high school building.

No action was taken on the vacancy existing in the teaching staff nor on the plans to add an art instructor on a part-time basis. The next regular meeting of the board will be held May 6 while the executive board of the vocational school will meet Friday.

Give Minstrels' Program Tonight

The Fairfield high school minstrels will present a program at the Arendtsville high school this evening at 7:30 o'clock. A future farmers' program that had been originally scheduled for this evening at the Arendtsville school has been indefinitely postponed.

ANNE FABER

It is not known whether she will return to the hospital in the fall or whether she will be permitted to remain here and go to Baltimore occasionally for treatments.

Mrs. Faber has been with her daughter since Thursday. Mr. Faber will leave Sunday afternoon to bring Mrs. Faber and their daughter home.

SCHOOL BOARD MAY BE FORCED TO BOOST RATE

\$25,000,000 Fund From Income Tax Law Invalidated by Supreme Court.

MEANS LOSS OF \$7,200 TO TOWN

Gettysburg's school tax for the 1936-37 term, omitted from Superintendent Lloyd C. Keefe's estimated budget set-up, may be increased as much as three mills, following a decision today from Attorney General Margiotti that the invalidation of the individual net income tax by the supreme court nullified acts appropriating \$25,000,000 to school districts.

Gettysburg would have received approximately \$7,200 from the increased appropriation made possible from revenues from the income tax law if it had been held constitutional.

Mr. Keefe explained that Gettysburg's present school tax of 16 mills may have to be increased to 19 mills to make up the \$7,200 which this district will not receive following the attorney general's ruling.

Economic Operation

"Of course Gettysburg is operating its school system far cheaper than most communities in the state. At the present time we are operating our schools \$20 per pupil per year cheaper than the state average. If we are compelled to raise our school tax we will still be in better condition financially than most communities," Mr. Keefe said.

The superintendent said he was hopeful that some means could be found whereby Gettysburg's school board would not have to increase the school tax three mills.

The opinion from Attorney General Margiotti is contained in the following Associated Press dispatch:

Revenue Ruled Out

Harrisburg, April 4 (AP)—Attorney General Margiotti ruled today that invalidation of the individual net income tax by the supreme court nullified acts appropriating \$25,000,000 to school districts.

The opinion was requested by Dr. Lester K. Ade, superintendent of public instruction.

The income tax bill was passed by the 1935 legislature. Two companion measures appropriated the revenue to school districts providing they made corresponding reductions in real estate taxes.
