

## MORE TAKEN ON LIQUOR CHARGE

**Soldier Arrested and Held. Said to Have Supplied Fellows with Drink.**

## ON EXCURSION TO YORK

**One of Three Men Charged is Released. Ask People to Help Entertain Men while there.**

Three arrests have been made in York on the charge of furnishing liquor to soldiers in uniform. There has been a general exodus night after night of the soldiers from the Gettysburg camp to York and a number of them have become intoxicated in the latter place. The fact that the men are not required to be in camp before 5:30 a. m. allows time for an all-night party and the police at York have started to run down offenders.

The first two men taken were Harry E. Wilhelm, aged 23, residing at Hotel York, and Harry Stambaugh, aged 18, of 829 South Beaver street. Both were arrested by Patrolman Jones after they were accused of furnishing liquor to two uniformed men Friday evening on Market street, between Duke street and Centre Square. The arrest was made by direction of Mayor Hugentugler.

At a preliminary hearing in York Saturday Wilhelm was held while Stambaugh was discharged as there was not sufficient evidence to indicate his guilt.

York, June 25.—Sam Bush, 26 years old, a member of Company E, Fourth U. S. Infantry, now encamped at Gettysburg, was arrested by Detective William Eisenhart and Patrolman Thomas Jones on Saturday night for furnishing liquor to soldiers in uniform. He is being held at the city prison awaiting the arrival of a guard from Gettysburg, where he will be dealt with by the military authorities.

Bush, who is a Russian, came to York Saturday in uniform, bringing with him in a suit case his civilian clothes. Going to a private alley in the rear of a South George street restaurant, he exchanged his uniform for the civilian clothes. Then he visited a number of drinking places and procured liquor which he distributed among the uniformed men. Information of Bush's conduct came to the attention of the police and led to his arrest.

Mayor E. S. Hugentugler, yesterday morning, communicated by telephone with Colonel Hatch, to whose regiment Bush belongs. The colonel instructed the mayor to hold the prisoner pending the arrival of a guard which will take him back to camp where his case will be disposed of.

The York Daily says, "Many of the soldiers coming to York from the camp at Gettysburg have been getting liquor by some means, although the law forbids selling liquor to a man wearing the uniform of the United States."

The York Gazette says, "It is claimed that the young men accepted money from the soldiers, who could not buy liquor because they were in uniform, and they bought whiskey and gave it to the soldiers. It has been noticed that a number of the soldiers who come from Gettysburg to this city get intoxicated and the police watched to see where they got it. The result was the arrest of Wilhelm and Stambaugh. There are others under suspicion."

"Mrs. Elsie Singmaster Lewars, of Gettysburg, has communicated with prominent York citizens, suggesting that some provision be made for the entertainment and pastime of the soldiers who come from Gettysburg so that they can be kept out of mischief."

It might be well to note that the law forbids not only the selling of liquor to soldiers in uniform but also "furnishing" it, whether or not any money is involved in the transaction.

## BETTER SERVICE

**Western Maryland will Give Two Baltimore Trains Each Way.**

Heading the requests of the people of Gettysburg and men connected with the big camp here, officials of the Western Maryland Railway have decided to give better connections between Baltimore and this place.

Beginning this evening, the milk train from Baltimore to Hanover will be run through to Gettysburg, arriving here about nine o'clock. For the remainder of the week this train will leave Gettysburg for Baltimore every morning at 4:30.

Beginning next Monday the train which now arrives here at 8:59 a. m. for York, will leave about 8:00 and go to Baltimore instead, and the evening train from York to Gettysburg arriving at 7:01 will come from Baltimore. The exact time will be given later in the week. After this week the temporary milk train service will be taken off.

This gives Gettysburg the same Baltimore service as several years ago, before the Pittsburgh express trains were put on, and the new arrangement will prove generally satisfactory.

## 20,000 GALLONS OF OIL BOUGHT

**People Asked to Sweep Dust to Get Ready for Sprinkler this Week.**

The committee having in charge the oiling of the streets of town states that work is expected to be started on Wednesday and that the entire job will likely be completed in two days. The oil is to be applied with a sprinkler and, with favorable weather conditions, it will take a short time to each block.

On account of the fact that people will not have to contribute financially to this work, they are asked to help prepare for the oiling by sweeping up the dust in front of their residences and business places. This will allow the work to be done much more rapidly than if a force of hands had to go over the route ahead of the sprinkler.

Sweep the dust to the side of the road, in a ridge about three feet from the curb. This will clean the road and at the same time prevent the oil from running into the gutter and marking the curbing.

The streets named for the oiling, up to this time, are Baltimore, Carlisle, Washington, Buford, and Middle streets, and Steinwehr avenue. If the committee determines that other highways in town need it, and if there is sufficient oil to allow it, some other streets will get similar attention.

A single tank of 20,000 gallons of oil has been purchased from the Atlantic Refining Company and that concern will also have charge of the application.

Many of the teams and individual solicitors have not yet made their reports and they will continue hard at work for several days to come, if necessary. The National Red Cross hopes to have its goal attained by tonight and telegraphic reports show that this hope will be fulfilled. But it must also be remembered that counties and towns are being relied upon to furnish the quota of subscriptions which had been apportioned among them.

## ISSUE PROTEST

**Mexico now Gets a Note from Washington. Tax Question.**

(By Telegraph)

Washington, June 25.—A firm but friendly protest was issued to-day against the new high taxes in the Tampico oil fields and the so-called moves against the denationalization of foreign companies by the Carranza government. It is understood that Great Britain seconded the move of the United States regarding the taxes, but whether she sent a note is not known.

The representations on the taxation question declare that taxes are almost confiscatory.

## MINISTRY RESIGNS

(By Cable)

Athens, June 25.—The entire Zaimis ministry resigned to-day. It is reported that Eletheros Venizelos, former premier and president of the provisional government, is now en route here, and may be named by King Alexander as head of the new cabinet.

Allied officials say that the King could make no more popular move than this, and that would do much to unite the monarchial and provisional governments.

## WESTERN FLOOD

(By Telegraph)

Salt Lake City, June 25.—The dam of the great reservoir, twelve miles north of Fairview, burst to-day under the pressure of 12,000 acre-feet of flood water. The torrent is sweeping over the valley below, endangering five small towns and doing thousands of dollars worth of damage to property. The loss of life will be minimized through telephone warnings sent in all directions.

## POPULATION ON STEADY GROWTH

**Census of Children Shows Increase of Twenty Five Per Cent in Six Years.**

## MAY PASS 5000 IN 1920

**Schools Get Appropriation Based in Part on Number of Children in the Town. Hence the Count.**

Mrs. S. M. Stewart, who annually takes a census of the children of Gettysburg, has completed the task for this year. The figures show a steady increase. The work is done for the school board and includes all the children of the town between the ages of six and sixteen. This year the total is 767, the largest of any year since the census has been taken and 150 more than in 1912.

In every year except one, 1915, there has been an increase over the figures of the previous year. The following is the result of the six years' work.

1912	617
1913	692
1914	724
1915	717
1916	736
1917	767

The State appropriation for the local schools is based on two things, first the number of children of school age in the town, and second the number of teachers for the children in the schools.

Of special interest, however, is the steady increase shown by the above figures for it indicates that there has been a healthy growth in the population of the town. The increase in the children has been practically twenty five per cent in six years. The last census of adults and children was taken in 1910 when the total was 4030. It is safe to predict that when the census is taken in 1920 the town will register in the 5000 class.

## WHEAT CROP TO AVERAGE WELL

**Decided Improvement in Conditions is Reported by Official of the State.**

Pennsylvania's wheat crop will average at least \$5 per cent according to H. V. White, chairman of the state agricultural commission. He bases his prediction on observation during a tour through a greater part of the state and reports received at the state millers' association sessions last week.

Commenting on the early reports of crop failure which reached state officials and conditions now he says:

"I only recently had occasion to go over sections of the state in which the wheat crop, when I saw it before, was an apparent failure. The only reason the farmers did not plow it under was because they didn't have the help with which to do the work. To my amazement I found these same fields had a fairly good stand of wheat, while the quality is exceptionally good, due to the fact that the crop is not exceptionally heavy."

With reference to the oats and corn crops Mr. White says that they will be at least 50 per cent above the average. He says that the increase in the potato acreage makes it impossible to estimate on the probable yield with reference to other years.

Hay will be short, he says, because the continued rains have resulted in weeds choking its growth. Reports which have come to him, he says, indicate that the fruit production will be very heavy. Fruit experts he says, declare that the dropping caused by the rains tends to increase the value and improve the crop.

Misses Bertha and Lillie Eckert, of near Table Rock, and Mr. and Mrs. Glenn Roth and two children, Clyde and Eugene, of Seven Stars, spent Sunday with Mr. and Mrs. William Allison, Iron Springs.

## SPECIAL UNIT FOR OUR CAMP

**Boys from Harrisburg and Vicinity All to Belong to One Organization.**

## BIG RECRUITING DRIVE

**Will Preserve its Identity even if Taken to European Battle Front. For General Recruiting.**

A Harrisburg Unit for the Gettysburg camp and for service abroad was proposed to-day in the Capitol City. It is the idea to preserve the identity of the unit throughout its entire term of service.

It may be named the "Harrisburg Unit" or the "Dauphins" in appropriate recognition of France and its Dauphin, in whose honor that county was named. Or they may want the unit known as the Susquehanna or the Lafayettees, any one of a number of names.

Many suggestions have been made to steam up the campaign. The Motor Club may be asked to furnish cars to scour the city and environs and bring the lads into the recruiting office. Noonday meetings at the factories, so-called "four-minute men" to talk during the intermissions in the moving picture houses and free band concerts by bands are being discussed.

Among the recent recruits listed for the Gettysburg camp was George P. Miller, of East Berlin, who applied at the York station. He will be assigned to one of the regiments here.

By the dozens the rookies are coming in daily and being distributed among the six regiments now forming. They are being put through hard drilling and no time is lost in getting them into trim for duty.
