

State Purchases More Land for Teachers College

CLEAR TITLE WILL BE GIVEN IN '43 TO TRIANGLE TRACT

Ground Bought from Messier Under \$20,000 Appropriation by Legislature.

Cedar Falls — For the second time in two years the Iowa State Teachers college has secured small plots of ground adjacent to the campus—with the purchase by the Iowa state legislature of a piece of land south of the campus from Charles Messier.

The land was purchased on appropriation of \$20,000 by the legislature and the bill was signed Monday by Governor George A. Wilson.

Will Be Cleared. The farm land, according to Dr. Malcolm Price, president of Iowa State Teachers college, will be cleared of buildings and brush, and will be landscaped under direction of E. E. Cole, superintendent of buildings and grounds.

The other plot of ground recently secured by the college was transformed into a parking lot west of the fieldhouse on highway 58 last fall.

No definite use for the new land has been decided. The triangular plot, purchased from Charles Messier, extends west on Twenty-seventh street to a line level with the heating plant, then south about a half mile to the Dike diagonal road, and east on the diagonal to College street.

Fine View of Campus. The land is sloping to the east and south and when cleared of buildings and trees, according to Dr. Price, it will give a fine sweeping view of the campus to motorists approaching on that highway.

Clear title to the property will be secured in the spring of 1943, and landscaping will be begun immediately after legal steps are complete, according to Dr. Price.

Home Service Art of Fashion Drawing Can Be Learned at Home

Charts Help You Draw Figure.

Do you wish you had enough talent to draw fashions? Perhaps you have! A few clear charts can take a little drawing ability a long way, as many a successful fashion artist can tell you. And you can learn a lot at home.

To draw a well-proportioned figure, follow the rule that the fashion figure is about eight times the length of the head, the shoulder 1½ heads down.

The lines of the pose aren't hard to get if you "block in" the nude figure first. Draw a balance line from throat thru foot supporting weight, and parallel lines to indicate shoulders and bust, waist and hips. However you tilt shoulders, bust line tips same way; however you pose hips, waist line is parallel.

Now, after lightly sketching in the body contours, you have a graceful well-proportioned figure on which you fit the dress.

In our 24-page instruction book you will find simple charts with practical instructions, explaining how to "block in," pose and dress the fashion figure. Tells how to draw fabrics, fur, use line and wash techniques.

LUCY N. SILLIMAN OF CEDAR FALLS DIES AT AGE OF 98

Father, Son Have 89-Year Record of Service to Church

Decorah, Ia.—(UP)—An 89-year record of continuous service by a father and son will end at the Washington Prairie Lutheran church near here Jan. 1, 1942, as a result of the resignation of the Rev. Paul Koren.

The Washington Prairie congregation was organized in 1853 by Rev. Wilhelm Koren, shortly after his arrival from Norway. When he was elected president of the Norwegian Lutheran synod of America, the son was called to the elder Koren's assistance. When the latter died the son succeeded to the pastorate. Their record of service is believed unequalled in the nation.
