Conductor Lawrence was rolled under the wheels and his legs and right arm crushed. WOMAN SUFFRAGE WINS.

Pennsylvania Seventh Over the Top for Suffrage.

We are living in an age of political wonders. The great State of Pennsylvania is near the head of the procession for the Susan B. Anthony amendment to the Constitution granting suffrage to women. The Senate passed the amendment last week by 31 to 6 and on Tuesday, June 24, the House passed it by 153 to 44, making the Keystone State the seventh State to vote for it. Senator Beals and Representative Grief voted for the amendment. There is nothing the matter with Adams county and the women are going to vote for the next President of the United States. Watch 36 States fall in line for it. The States already voting in favor are: Illinois, June 10, 1919. Wisconsin, June 10, 1919. Michigan, June 10, 1919. Ohio, June 16, 1919. New York. Pennsylvania, June 24, 1919. Massachusetts, June 25, 1919.

Teachers' New Salary Law.

The Act provides that the minimum salaries shall be as follows: Teachers holding provisional certificates, \$60 per school month; professional certificates or state normal school certificates, \$70; state normal school diplomas, county permanent certificates, state permanent certificates or college provisional certificates, \$80. Teachers who in 1918 and 1919 received less than \$100 per school month but whose salary is not increased by at least 25 per cent under other sections of the bill are to receive an increase of 25 per cent; those receiving between \$100 and \$150 an increase of 20 per cent; between \$150 and \$200 an increase of 15 per cent; and those receiving more than \$200 a month an increase of 10 per cent.

The school districts are to pay one-half of all increases and the State the other half. In addition to the minimum salary provided and in addition to the portion of salary required to be paid by the State, the commonwealth shall pay to each teacher of a rural school holding a certificate higher than a provisional certificate \$10 per school month. A rural school, according to the act, shall be taken to mean any one or two room school not a high school situated in the open country or center of population. Any school district that does not increase salaries in accordance with the provisions of the bill shall forfeit its right to share in any appropriation for the public schools of the State.

Hustle Wanted on State Road Work.

The Highway Department announce that contractors will not be permitted to delay construction. There can be no excuses of a shortage of labor or lack of shipping facilities. During the last few days a half dozen contractors have been called to the department at Harrisburg and have been notified that unless they speed up their work and quickly complete their contracts, these contracts will be taken from them and the bonding companies held responsible. The State proposes to complete 600 miles of thoroughfare this year. Contractors are not to be permitted to drag along. The effect has been to impress upon contractors before their contracts were signed, that unless they had the financial backing, equipment and the engineering and labor facilities necessary to put over the job, they would not be awarded the contract. All contractors are being called into the department for conference before final papers are executed. In the future the State Highway Department will be even more insistent that contractors are absolutely able to do what the contract calls for.

At Odds Over Price of Pikes.

The State Highway Department and the turnpike companies are at odds over prices. The Berlin and Hanover turnpike, three miles in York and seven miles in Adams counties, the State will purchase for \$20,000 and company wants \$25,000. The Hanover and Littlestown turnpike with seven-tenths of a mile in York and balance in Adams county, State values at \$20,000 and company wants \$27,710. The McSherrystown and Hanover turnpike almost all in Adams county, State values at \$14,000 and company wants \$18,000. The Hanover and Maryland pike is offered for \$12,000 and wants \$13,420.

The Highway Department, York and Adams counties are willing to take over on a fifty-fifty basis. It looks to outsiders that the owners ought to get in line when fair prices are offered for things that are in the discard for something better.

UNCLE SAM IS DRY

DRY ACCORDING TO THE ORDERS GIVEN TO HIMSELF.

Better Men and Women, Better Homes and Better Communities Coming Into Their Own.

Before another issue of this paper the United States of America is going to achieve another great victory, of governing themselves. So the United States becomes dry according to war prohibition law and the outlook is good for a dryness until January 1, when the national amendment goes into effect.

Pennsylvania has a big strong Governor, bigger and stronger than his party. The Legislature attempted to nullify the Constitution of the United States by making beer with not over 2 3/4 per cent alcohol to be a legal drink in spite of all laws. The Ramsey bill was thrown at the Governor, Senator Beales however, voted against it. But Governor Sproul declared it would break the spirit and letter of the Constitution and announced he would veto it.

The situation in the States is somewhat confusing. There are 16 States dry by State constitutional amendment. There are 17 States dry by Statewide prohibition laws. There are 15 States without Statewide prohibition laws like Pennsylvania. There are States which have fixed one-half of one per cent as the standard of an intoxicating drink. Rhode Island allows 4 per cent. Massachusetts permits cider of 3 per cent; others have fixed 2 per cent and 1 per cent. Over twenty have no legislation, without any basis fixed by defining "intoxicating" and there are States prohibiting all alcoholic liquors for beverage purposes. The experience of every State, city and community after a trial of dryness, is that there would be no return to wet conditions. Big western cities like Seattle after a period of dryness voted to remain so by thousands of a larger vote than on the first voting. The result has always been better men and women, better homes and a better community. It is surely worth while living to see a day like this.

CORNER STONE LAYING.

Annie M. Warner Hospital for Gettysburg and Adams County.

The corner stone laying of the Annie M. Warner Hospital will take place next Monday evening, June 30, at 7 o'clock. The hospital is the generous gift of John M. Warner to Gettysburg and Adams county, and his wife, Mrs. Annie M. Warner, will have charge of the placing of the corner stone in the ceremony of its laying. There will be short addresses by the officers of the Association, Dr. J. A. Singmaster, President; Rev. Fr. W. F. Boyle, Vice President, and Wm. Arch. McClean, Secretary. Prayer will be made by Rev. Into the receptacle in the stone at the corner stone laying will go a number of articles, being arranged for the occasion, copies of the charter and by-laws of the hospital, a Testament and copies of the local papers.

The heavy joists for the first floor have been placed and everything is in readiness for the masons to go ahead with the brick work. It will be a matter of but a few weeks now until the building will be under roof. Paul Reid Pontius; Vice President, Roy P. Funkhouser; Secretary, Wm. Meals; Treasurer, Peter C. Stock. The President was given authority to appoint committees on Publicity, Entertainment, Parade, Athletics, Refreshments, Finance, and Invitations, and the members are not to be confined to the orders but seek to be representative of the county.

The ground will be provided with croquet and baseball outfits, swings, slides, see-saws and sand boxes. Play will be supervised and lace making and needle-work will be taught. It is expected to have the grounds ready for the children by July 1st. On account of starting this new project on a small scale it will not be possible to have an opening day but it is planned to have a Remper Day and Closing Day in the fall.
